I work in the health, medical and social policy fields and can assist native and non-native English speakers with the language of your papers and dissertations.

If you are looking for advice on drafts, final rapid editing or proof-reading of your academic and professional writing, look no further.

**Colleagues say:**

"Thanks Blaine, that's great. Please can you edit everything I write ?!" Dr. Harry Sumnall, Reader in Substance Use, Centre for Public Health, Liverpool John Moores University

"With your editing assistance, I made my papers clearly and concisely, presenting the data that made them acceptable to several international peer-reviewed journals. Your excellent knowledge of English helped me to avoid using ambiguous phrases and assisted me and my colleagues in the development of study protocols, preparation of grant applications and scientific reports. I appreciate your service and will continue to send you more of my work in the future. "
